GS1 Switzerland

Benefits data sender

Healthcare

Simply

The data can be easily entered in the user-friendly firstbase web portal or easily uploaded as an xls table using drag & drop.

Business reach

New product data and changes are available immediately and to everyone. This ensures that your business partners can always work with correct and up-to-date product data.

Open

The firstbase API interface enables fast and simple integration - optionally in a next step.

On demand

Modular pricing model: If required, connection to various databases (e.g. LIR, NHS), GS1 GDSN® or regulatory databases such as EUDAMED, GUDID and the planned Swiss Database on Medical Devices (swissdamed).

Efficient

Your product master data is checked and quality assured. They are centrally available to all your customers. This saves you the maintenance and delivery of multiple xls templates for each recipient.

Ecosystem

Your master data is available at any time and across systems: You are part of the solution and thus part of the ecosystem.

Benefits data recipient

Healthcare

Simply

The data can be searched for in the online catalog firstbase via search & browse and downloaded as an Excel file, for example.

Business reach

New product data and changes are available immediately and for everyone. This ensures that you always work with correct and up-to-date product data.

Open

The firstbase API interface enables a fast and simple integration optionally in a next step.

On demand

Modular model: manufacturers andservice providers use firstbase according to their needs. Regardless of whether data is exchanged nationally or globally, firstbase offers the right solution.

Efficient

The product master data is checked and quality-assured by firstbase and is available centrally from all suppliers. This saves you having to request and receive multiple xls templates for each supplier.

Ecosystem

The master data is available at any time and across systems: They are part of the solution and thus part of the ecosystem.

We are happy to be there for you!
